

THE MYSTICAL CHRIST

*Religion as a
Personal Spiritual Experience*

By Manly Palmer Hall

THIS INSPIRING DEVOTIONAL BOOK

tells in simple words the substance of the original Christian revelation. It is written to meet the need for a basic statement of personal conviction. The wise and gentle way taught by Christ is not a beautiful ideal beyond attainment, but a practical and livable pattern available to those who are willing to serve the light of truth that glows within themselves. The chapter headings of the book will indicate the arrangement of the material.

THE ADEPTS IN THE WESTERN ESOTERIC TRADITION

A Research Study in Five Parts

By Manly Palmer Hall

Years of patient investigation by Mr. Hall through hundreds of rare books and manuscripts have made possible these remarkable essays on the history of the mystical doctrines in Europe and America. This is the most complete collection of data relating to the descent of the Mystery Schools and their teachings ever compiled. The following outline will indicate the scope of the sections.

PART I — ORDERS OF THE QUEST

Under this heading is covered the restoration of the Esoteric Schools from the collapse of the Roman Empire to the Renaissance. The reader follows the career of Manes, the Persian mystic—the tragic fate of the Albigensian heretics—and is introduced to the glory of the Guilds. The Order of the Knights Templars is examined and the Cycle of Charlemagne—the strange beliefs of the Troubadours—the mystic revelations of Dante—Merlin, the Magician—the legends of King Arthur—the Cycle of the Holy Grail—Prester John, the Phantom Emperor of the World—Hans Sachs, the Meistersinger of Nuremberg.

PART II — ORDERS OF THE GREAT WORK

From the Hermetic traditions of Egypt came the wonderful symbolism of alchemy. Under chemical signs and diagrams, the secret lores of human regeneration were preserved through those difficult centuries we call the Middle Ages. Included in this essay are the stories of Paracelsus—Roger Bacon—Raymond Lully, that universal genius—Nicholas Flamel, the humble notary who found the Philosophers' Stone—a meeting of Dervish immortals—Basil Valentine—and many others who sought the Universal Medicine and the Elixir of Eternal Youth. There is Elias the Artist, the most elusive of the alchemical Adepts, and many remarkable and dramatic incidents, well-documented, of incredible persons and events.

PART III — ORDERS OF UNIVERSAL REFORMATION

With the dawn of the modern world came the effort to bring the Secret Tradition to the attention of thoughtful persons in various walks of life. The Rosicrucians issued their great Proclamations, and the search for the Secret Master of the Rosy Cross began. Such names as Michael Maier, Robert Fludd, Jakob Boehme, and John Heydon came into prominence. Francis Bacon and rare Ben Jonson created their nursery of Humanism at Gray's Inn. More's *Utopia*, Campanella's *The City of the Sun*, and later such works as Bacon's *New Atlantis*, Defoe's *Robinson Crusoe*, and similar writings concealed deep truths under pleasant tales. The great motion of Reformation prepared the way for modern progress.

PART IV — MASONIC ORDERS OF FRATERNITY

From the old Guilds and secret foundations in antiquity, from the Roman Collegia and the Comacine Masters came the doctrines which, in the early 18th century, flowed together to form modern Freemasonry. The essay covers the transition period of Guild Societies, the English Miracle Plays, and the effect of the Protestant Reformation and the part played by Martin Luther. The foundation of the Royal Society—the revival of Rosicrucianism—the story of Louis Claude de Saint-Martin, the unknown philosopher Emanuel Swedenborg — Voltaire — Cagliostro—St.-Germain—and the Order of the Illuminati are examined. Mozart's Masonic opera, *The Magic Flute*—The Egyptian Rites of Masonry—Eliphas Levi, the French Transcendentalist, and the dramatic incidents of the French Revolution form a remarkable pattern well worth examination.

PART V — AMERICA'S ASSIGNMENT WITH DESTINY

The secret plan behind the colonization of the Western World should be understood by all thoughtful citizens. This part begins with the story of the ancient civilizations of Mexico and Central America and the wonderful culture of the Incas of Peru—Then come the voyages of Columbus, and the little-understood contributions of Lorenzo de Medici and Leonardo da Vinci. Lord Bacon's part in the colonization of the Western World—the strange story of *The Tempest*—the Bacon Rebellion in Virginia—the Pietists of Pennsylvania—the American Revolutionary period—George Washington, Benjamin Franklin, and Lafayette are included. There is space for the Latin American patriots: Simon Bolivar, Miguel Hidalgo, and Benito Juarez.
