## **REINCARNATION: THE CYCLE OF NECESSITY**

**by MANLY P. HALL**

This book is recognized as a definitive work in the literature on rebirth. For the new edition, just off the press, Mr. Hall has added a "Postscript" containing timely notes and observations, including further bibliographical references and an important case history reported in 1966.

Entirely compatible with the scientifically acceptable teachings of evolution and causality, rebirth is sustained by the almost irrefutable testimony of Universal Law and natural procedures. We are in a generation of scientific skepticism, but strangely enough, the belief in reincarnation has gained greater recognition from trained minds than any other solution for the riddle of human destiny.

Older cultures that have lived long and faced many political and sociological changes, have been led to the acceptance of reincarnation by the problems of daily existence. Today more than a billion human beings accept as perfectly reasonable and necessary the idea that they will live again in this world.

The thirty-two chapters of this book present a clear and direct development of various aspects of the doctrine of rebirth. Among the subjects discussed are: reincarnation in Oriental systems of thought, Greek philosophy, and among the American Indians; the theory as set forth in the Old and New Testaments and interpreted by the early Christian Fathers; the rebirth of animals, plants, and minerals; the idea of soul-mates, the memory of past lives, and the fate of the suicide.

The work is strongly documented, and there is an extensive bibliography for those who desire to continue their studies of the subject. Cloth bound, 224 pages, two full-page plates, complete digest index.

Price: \$4.00 (please add sales tax in California)

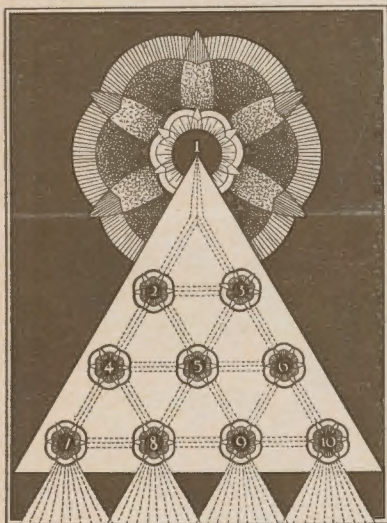

AN IMPORTANT TEXTBOOK FOR SERIOUS STUDENTS

# LECTURES ON ANCIENT PHILOSOPHY

An Introduction to Practical Ideals

by MANLY P. HALL

One of the most comprehensive of Mr. Hall's publications, this volume summarizes the basic thinking upon which his life and work have been established, and covers a wide range of subjects. In the opening chapters, the reader is introduced to the concept of the universe set forth by the Platonists, Neoplatonists, Gnostics, and Cabalists. The religious philosophy of the ancient Hindus contributes to the over-all theme, and this, in turn, prepares the way for a discussion of Buddhism, especially the law of cause and effect as it applies to the unfolding consciousness of the individual. In the study of cosmogony, the mathematical philosophy of Pythagoras is introduced, and the ideals of the Greek metaphysicians are restated in the terms of Ralph Waldo Emerson. The rise of the esoteric schools of antiquity is discussed, and the rituals of initiation in the sacred institutions of Greece and Egypt are explained in terms of the classical symbolism. The various streams of research and study converge upon the nature of man himself, his place in the world, and the constitution of his spiritual and psychic natures. In this area, Rosicrucian and Masonic ideals are introduced, which lead naturally to the vision of the future as set forth in *The New Atlantis* of Francis Bacon.

In *Lectures on Ancient Philosophy*, the reader will find the answers to many questions. This is not a book to be read hastily, but to be lived with and studied over a period of years. There are twenty unusual diagrams to assist in the clarification of the text. One of them, dealing with the theory of numbers, is shown here greatly reduced in size. A handsome volume bound in full cloth, stamped in gold; 515 pages, digest index.

Price: \$6.00 (Paperback edition: \$3.00)

## A NEW PROJECT

Because of the general interest in the religious art material exhibited regularly in our library, it has seemed fitting to provide some inexpensive pamphlets dealing with the legendry and lore of sacred art.

No. 1. "Legends of Glastonbury Abbey" tells of the first Christian foundations in Great Britain, including the legend of Joseph of Arimathea, the Glastonbury Thorn, and the Holy Grail.

No. 2. "The Psychological Meaning of Tibetan Art." With world attention focused on the tragedy of Tibet, it is well to be informed on the strange but beautiful symbolism of the remarkable religious paintings and sculptures of this remote country.

No. 3. "St. Mark and His Shrine." The story of St. Mark and his church, with the many art treasures that have been enshrined there, makes an interesting and vital contribution to the literature of early Christianity.

These pamphlets are reprints of articles from the PRS JOURNAL, 5½ x 8½ inches, 16 pages each. They are available at our headquarters for 25c a copy, and by mail order for 30c a copy, including postage.

**P.R.S. JOURNAL**

helps to solve problems. It will bring many articles emphasizing practical guidance for those who must meet the challenge of contemporary circumstances.

If you are interested in the wonderful achievements of humanity and the noble ideals that have contributed to human progress throughout the ages, you will find the PRS JOURNAL valuable—we might almost say indispensable!

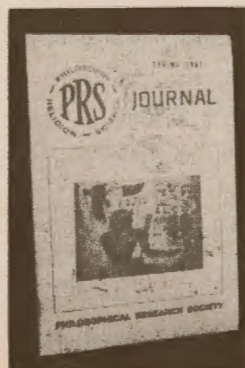

This year our Journal enters its 27th year of continuous publication. Our plans for 1967 include gathering unusual material from many fields of learning, areas of current interest, and remote corners of the world. We will also have illustrated articles on art, and on Mr. Hall's travels in China, India, Burma, and southern Europe.

In addition to the articles listed at the right, there will be occasional short stories about the delightful adventures of Mr. Nakamura, and the usual informative "Departments." In HAPPENINGS IN THE WORLD, Mr. Hall comments on a variety of current topics; HAPPENINGS AT HEADQUARTERS brings news about the interesting personalities presented by our Society from time to time, additions to our library and art collection, and the activities of Mr. Hall and his associates. LOCAL STUDY GROUP ACTIVITIES gives reports on P.R.S. study groups and suggestions for study projects.

# POCKET-SIZE PUBLICATIONS

by **MANLY P. HALL**

Three titles have been added to this popular series of valuable handbooks.

These booklets have attractive art-paper covers, 43-48 pages. The size is 4½ x 6 inches.

**ASTROLOGY AND REINCARNATION.** Now in its sixth edition, this essay is the only work generally available dealing with astrological keys to the previous embodiments of the individual and his place in the great pattern of universal unfoldment. The writing is divided into three sections: How to Read Your Past and Future Lives, Astrology and Reincarnation, and Astrology and Karma. The principles set forth are based upon old Hindu texts, but the concepts are brought into line with the interests of Western people.

## HOW BELIEF IN REBIRTH CAN ENRICH YOUR LIFE

A new printing, in the convenient pocket-size format, of this important study in the practical value of belief in reincarnation. The conviction that we live many times in this world makes the experiences through which we pass of greater value and meaning. This Eastern doctrine can help anyone to be a better parent, a more congenial marriage partner, a better employee or employer, and a more intelligent citizen.

## POSITIVE USES OF PSYCHIC ENERGY

Now available in the pocket-size format, this inspiring and instructive essay is dedicated to the proper use of the internal resources of the individual. To conserve the life flowing through us, we must develop certain constructive habits, discipline our conduct, and strive for inner serenity and peace. By planning our lives with greater skill and insight, we make the most of our allotment of divine or cosmic energy.

Other Pocket-Size Booklets: DEATH AND AFTER; HYPNOTISM; MAGIC; THE QUIET WAY; PSYCHOANALYZING THE TWELVE ZODIACAL TYPES; RIGHT THINKING; UNSEEN FORCES.

Price: \$ .75 each. (California residents please add sales tax)
